

### **Sodium selenite »sd« less dusting**

Application:

**Flat glass industry, Ceramic industry, Animal feed industry and others**

Packaging:

25kg Steel drums with clamping ring and plastic liner

Pallet size: 450kg

RETORTE's product advantages:

Permanently high stable quality, low iron content, laboratory analysis of each batch, delivery as aqueous solution in IBC's possible

### **Zinc selenite**

**Application:**

Container-Glass

Packaging:

25kg steel drums or 50kg fibre drums with clamping ring and plastic liner

Pallet size:

25kg units = 450kg

50kg units = 600kg

RETORTE's product advantages:

Very pure product with a low iron content

Application:

**Galvanic industry and manganese production**

Packaging:

25kg steel drums with clamping ring and plastic liner

Pallet size:

With 25kg units = 450kg

RETORTE's product advantages:

Less dusting product because of special crystallisation technique, high purity

Application:

**Fertilizers and others**

Packaging:

25kg steel drums with clamping ring and plastic liner

Pallet size: 450kg

RETORTE's product advantages:

Delivery as aqueous solution in IBC's possible

Application:

**Glass and Pigment industry**

Packaging:

25kg fibre drums with clamping ring and plastic liner

Pallet size: 450kg

RETORTE's product advantages:

Permanently high stable quality, low iron contents, laboratory analysis of each batch
